**Let us help you  
fill all your  
Traffic Safety Needs**

## 42" LOOPER CONE

Looped handle allows for easy movement and handling of several Loopers at one time. Looper-Cone with the patented reinforced handle design can be stacked without sticking together – the durable low density polyethylene plastic keeps the cones shape, reducing crushing and breaking. Cones come in a variety of models and weights.

Prices starting as low as \$19.75 each

## 42" LOOPER TUBE

More than just another delineator tube. These tubes meet the crashworthy requirements of NCHRP 350. The stem of the Looper Tube is made of flexible yet durable fluorescent low polyethylene material, with UV inhibitors to minimize fading. The recessed areas on the stem protects the reflective bands minimizing rips and scratches. The extra large flange at the bottom of the stem allows the rubber base to hold it firmly in place.

Prices starting lower than \$15.25 each

## 42" GRABBER CONE

If you look closely, you will see what truly differentiates the grabber-Cone from the competition; its versatility, strength and ease of use. Every aspect has been carefully thought out: its unique handle design, its durable low density polyethylene material, the smooth integration of available components, and the multiple applications you can create.

Prices starting lower than \$14.75 each

## 42" GRABBER CONE VERTICAL PANEL BARRICADES

Complete with Engineer Grade Sheeting (1) Side and 16 lb. Rubber Base (with Legend). Grabber Vertical Barricade comes in a variety of messages.

Prices starting at just \$31.50 each

Grabber Vertical Barricade comes in a variety of messages, price per cone.

## 12" ORANGE TRAFFIC CONES

12" Orange Traffic Cone...All vinyl construction assures durability and flexibility in all weather conditions. Long lasting brilliant fluorescent color provides high visibility protection. High density base creates low center of gravity for maximum stability. Engineered to meet MUTCD specifications.

Prices starting lower than \$7 each

## 18" ORANGE TRAFFIC CONES

18" Orange Traffic Cone...All vinyl construction assures durability and flexibility in all weather conditions. Can be ordered with a variety of reflective tape configurations and base weights. High density base creates low center of gravity for maximum stability. Engineered to meet MUTCD

Prices starting lower than \$7.75 each

## 28" ORANGE TRAFFIC CONES

28" Orange Traffic Cone...Long lasting brilliant fluorescent color provides high visibility protection. Comes in a slim model used by utility companies across the country or a regular size cone, variety of colors, with or without reflective collars and a variety of weights. High density base creates low center of gravity for maximum stability. Engineered to meet MUTCD

Prices starting lower than \$12.25 each

## 36" ORANGE TRAFFIC CONES

36" Orange Traffic Cone...High density base creates low center of gravity for maximum stability. Available in various weights and styles to meet specific needs. Options, such as stenciling, hot stamping, reflective collars, or flag adapters are available. Engineered to meet MUTCD specifications.

Prices starting lower than \$19.50 each

## TRAFFIC BARRICADES

We have many different types of barricades, with either plastic or metal legs. Now you can combine the strength of impact resistant plastic panels with traditional metal legs. These barricades components come together to form a more durable folding barricade.

Prices starting lower than \$34 each

## FOLDING TRAFFIC BARRICADES

Plastic folding barricades are made from durable impact resistant polyethylene, Barricade is 100% recyclable, lightweight and easy to handle. Panels are recessed to protect reflective sheeting. Wide selection of Type I and Type II barricades available. Meets M.U.T.C.D. standards. Unique Sand-Fil bottom panel. Optional metal barricades also available in multiple configurations.

Prices starting lower than \$34 each

## TRAFFIC RAILS AND CONES

If you're tired of broken wood or bent metal barricade panels, we have the answer for you. The flexible yet durable all plastic rail has been in use for over ten years. It's made of impact resistant polyethylene to withstand the rough treatment found in construction work zones.

Call for information on various configurations

## VERTICAL PANEL BARRICADES

The vertical panel barricades consist of durable blow molded polyethylene panels and recycled rubber bases. To assemble, simply "Step-n-Lock" the vertical panel into the base. No heavy rings, or bases that must be lifted over the top of the panel.

Prices starting lower than \$19 each

## WATER FILLED JERSEY BARRIERS

Durable Medium Density Polyethylene prevents cracking and breaking. Molded through forklift holes eliminates bowing when filled with water. Double wall knuckle design prevents breakage at hinge points. Hinge design allows for a 30-degree pivot between sections. 8" Fill hole speeds filling process, includes twist-lock plastic cap. Includes steel connection pin that allows sections to be connected together and plastic threaded release cap. 6' l x 32" h x 18" w, holds 137 gallons of water. Weight (empty) 80 lbs, Weight (filled w/water) 1,110 lbs.

Prices starting lower than \$306 each

## CHANNELIZER DRUMS

These Channelizer Drums have been tested to meet the crashworthy requirements of NCHRP-350. Drum is a minimum of 18" wide throughout its 36" height, regardless of orientation. It has a built in carrying and dragging handle. Its tapered design allows stacking with or without barricade lights for easy handling and storage. They come with a variety of base weights and accessories.

Prices starting as low as \$37.70 each

## TRAFFIC SAND BARRELS

Traffic Sand Barrel is easy to move and provides external verification of the barrels correct weight of sand. Different Configurations of barrels are used to create all of the weights used in current standard array geometries. External sand weight verification is easy just use the right configuration barrel to obtain the correct weight. Sand leaking is eliminated because each sand container is one piece, no edge seals.

Prices starting lower than \$227 each

## TRAFFIC DELINEATORS

Our wide selection of Delineators meet the needs of contractors, municipalities and utility companies worldwide. Our top-of-the-line traffic control products are designed and up-dated continuously with the latest innovations in traffic control and highway safety equipment. NCHRP-350 Crash Worthy and FHWA accepted.

Prices starting at just \$5.50 each

## ROLL-UP TRAFFIC SIGNS

We offer a full selection of wholesale traffic signs & stands including roll-up reflective and non-reflective traffic control signs, in a variety of sizes and color with a large selection of legends on all traffic signs. Check out our traffic signs & stands for incident management. Our portable traffic sign stands come in many shapes and sizes.

Prices starting around \$43 each

## INCIDENT MANAGEMENT TRAFFIC SIGNS & CONES

Highway incident management and emergency traffic control guidelines have changed with additional traffic on roads and highways and an increasing number of emergency personnel responding to an increasing number of highway incidents. In order to protect emergency response personnel at the scene of an incident and protect the motoring public from secondary crashes, police and fire departments are using our wide selection of incident management and traffic control products.

Prices starting lower than \$85 each

## SIGN AND STAND BUNDLES

Sign and stand bundles includes a Reflective Sign w/ Slide-N-Store frame, Sign Stand and Slide-N-Store Bag that holds sign and stand. Everything you need in one convenient bundle to enable your construction crew or emergency responder to provide advance warning to motorists.

Prices starting at \$260 each

## SIGN STANDS

We offer a variety of sign stands from simple one step and drop models to heavy weighted models. Our Zephyr Portable Sign Stand comes with two molded-in carrying handles allowing for easy movement and placement of the Zephyr Portable Sign Stand. Our Phoenix Sign Stand is easy to use. At last, a simple and easy way, to mount signs

Prices start at just \$82 each

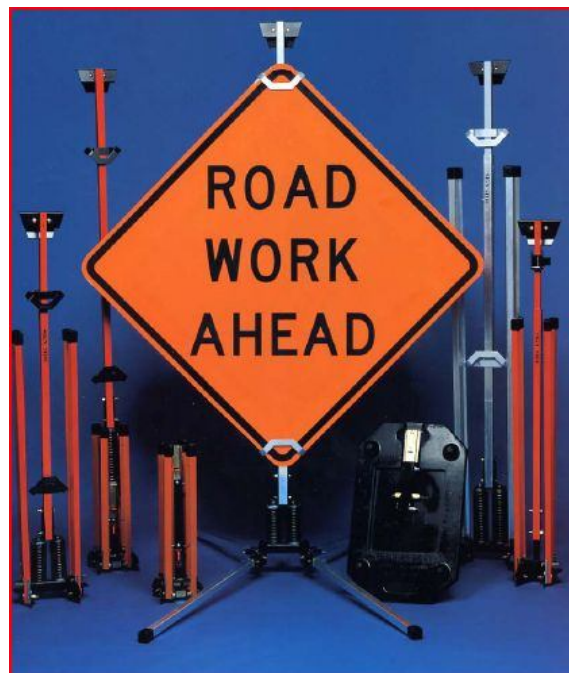

## RIGID TRAFFIC SIGNS

This new Aluminum Composite Material is approved by NCHRP-350, FHWA WZ249 and Many State DOT's. Is made of two .021 aluminum sheets bonded to a thermoplastic core, is perfect for your work zone signage. It can also be used in the place of .040 aluminum on your Custom Graphics signage. The sign is only 1.1 lbs. per square foot which makes it not only a durable, weather resistant product, but also a lightweight product. This material is a terrific alternative for MDO or rollup signs and can be even be used for sign mounted on Type III barricades.

Prices starting lower than \$72 each

## RIGID SIGN STANDS

Our Little Buster Sign Stand is designed to hold 30", 36", and 48" aluminum, wood, plastic or roll-up signs. All steel construction with powder coated paint to resist rusting. Telescoping mast with adjustable rigid or roll-up sign brackets allow for variable sign height adjustments. dual spring mounted base for added stability during high winds. Step-n-Drop legs enable you to set-up in seconds without having to bend over or stoop down. A two-position leg adjustment allows all four legs to be individually adjusted for uneven terrain. base for added stability during high winds. Step-n-Drop legs enable you to set-up in seconds without having to bend over or stoop down. A two-position leg adjustment allows all four legs to be individually adjusted for uneven terrain.

Our Big Buster sign stand has a steel base and two springs so it can withstand heavy winds as well as severe wind gusts and air currents created by passing trucks. The legs and telescoping mast are made of lightweight aluminum to reduce carrying weight. Big Buster is designed to hold wood, or .080 aluminum signs 5 feet off the ground. It can also be used to hold a roll-up sign 7 feet off the ground. A two position leg adjustment allows all four legs to be individually adjusted for uneven terrain. A built-in bracket holds up to three flags with wooden or plastic dowels.

Prices starting around \$142 each

## TRAFFIC AND PARKING SIGNS

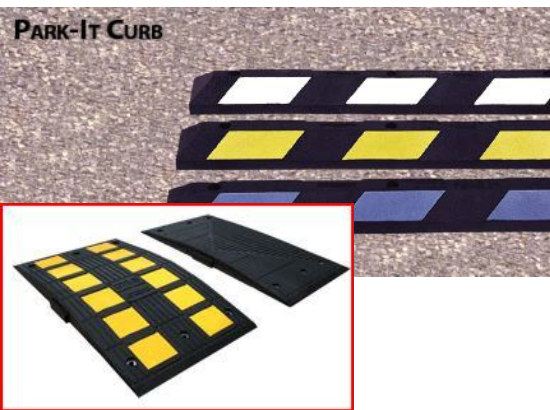

We offer a wide selection of traffic and parking signs. Our engineer grade reflective signs will reflect at night when light hits it, the lettering and background is totally reflective. Many of the signs are .080 inch thick flat aluminum with engineer grade reflective sheeting applied over the surface, which is popular with many cities. Signs will never rust and normally have an average life span of 7 years or more. Signs meet most State and Federal D.O.T. specifications.

Prices as low as \$8.50 each

## OSHA FACILITY SIGNS

View our wide selection of wholesale safety signs, danger signs, industrial signage, OSHA safety signs, ANSI standard safety signs, traffic cone topper signs and incredible photo realistic safety signage.

Prices starting at \$4.50 each

## SPEED BUMPS AND PARKING STOPS

Unlike concrete or plastic, which necessitate frequent replacements, recycled rubber car stops and bumps are safer and more durable. Molded highly reflective tape ensures visibility and pedestrian safety. The Park-It car stop is constructed of 100% recycled rubber.

Prices starting around \$17 each

## SAFETY VESTS

We offer a full line of wholesale traffic safety vests. Check out our wide selection of traffic safety vests including mesh safety vests, class II & class III safety vests, surveyor, ultra light and economy traffic safety vests.

Prices starting at \$3.75 each

## ATTENUATORS—TRUCK, TRAILER, AND PERMANENT MOUNTED

Our Truck Mounted and Trailer Attenuators are truly "different by design". Upon impact, our Truck Mounted Attenuator crushes in progressive stages. They pass all NCHRP-350 TL-2 and TL-3 standards. We offer a wide selection of attenuators, arrow boards, dynamic signs and message signs, both trailer and vehicle mounted.

Call for pricing

## DYNAMIC MESSAGE SIGNS

The vehicle mounted dynamic sign combines the flexibility and convenience of dynamic messaging with complete mobility. This enables the user to reconfigure the signs to suit a wide variety of vehicle makes and styles. The result is the one-of-a-kind changeable message sign with a universal mounting system designed especially for trucks and vans that can be customized for a wide range of vehicle makes and styles.

Call for pricing

## TRUCK AND TRAILER MOUNTED ARROW BOARDS

The most advanced Vehicle Mounted Advance Warning Panels in the World. Comes with a recommended wireless remote and power tilt mount for quick deployment when it wouldn't be safe for the operator to get out of the vehicle. Powerful actuator motors control the up/down function of the unit for emergency situations or for safety!

Call for pricing

## TRAILER MOUNTED DYNAMIC SIGNS

The trailer mounted dynamic sign combines the positive attributes of both an arrow board and a dynamic message sign. This convenience and flexibility enables the user to reconfigure the signs to fit any application.
